Professional Summary

MCA graduate and Java Backend Developer with hands-on experience in Core Java, Spring Boot, JDBC, MySQL, REST APIs, and Object-Oriented Programming. Skilled in developing backend applications, implementing CRUD operations, writing optimized SQL queries, debugging applications, and building scalable software solutions. Passionate about learning new technologies and contributing to enterprise application development.

Technical Skills

Programming Languages: Java, JavaScript (ES6+), SQL

Backend: Spring Boot, REST APIs, Hibernate/JPA, JDBC, Java 8

Frontend: React.js, HTML5, CSS3, JavaScript

Database: MySQL

Tools: Git, GitHub, Maven, Eclipse, IntelliJ IDEA, VS Code

Experience

Hourly Recruit Tech Labs

June 2026 – Present

Trainee Software Engineer

- Developed backend features using Core Java, Spring Boot, JDBC, and MySQL.
- Implemented CRUD operations and wrote optimized SQL queries for efficient database management.
- Designed and integrated RESTful APIs following Controller-Service-Repository architecture.
- Applied Object-Oriented Programming principles, Java 8 features, and exception handling in real-time applications.
- Debugged application issues, fixed defects, and improved application performance under mentor guidance.
- Collaborated with the development team using Git and Agile development practices.

Projects

College Management System

- Developed a backend application using Spring Boot and MySQL.
- Built REST APIs supporting CRUD operations for students, faculty, and courses.
- Implemented layered architecture with Controller, Service, and Repository.
- Used Spring Data JPA for ORM and optimized database queries.

Weather Application

- Developed a responsive weather application using React.js.
- Integrated external REST APIs to display real-time weather information.
- Implemented city search functionality and responsive UI.

Education

Maharaja Institute of Technology, Mysore

Master of Computer Applications (MCA)

2022 – 2024

CGPA: 7.57

Certifications

- NPTEL – Distributed Systems (2024)
- Inventeron Technologies – Web Development (2023)
- Currently learning Docker, Kubernetes, CI/CD Pipelines, and Concurrent Programming
